*Add background image/ graphic to support brand/ color scheme*

Tiered borders could instead be pages of a notebook, differing picture frames (to reflect theme/ mood of content for each conversation), etc.

Could have a tagline that represents the "journey" of these conversations toward the "destination" at the end of the gallery

Updates: [Email address]

Idea is a "gallery" walking through different conversations. Could use avatars for She said & He said "in the gallery", or male & female foot/shoeprints on the path, etc.

Borders surrounding posts could be picture frames ala a gallery

Clicking on a post would bring it up in its own, full-size page

Prior Topic/ Theme, etc.
